

# wireless **WISE** KIDS

## Safer Ways to use Mobile and Wireless Technology

What do the techno-savvy youngsters of today's wireless generation need most of all?

To know how to use wireless devices more safely.

Today's kids love their wireless technology. It's not unusual for them to spend hours each day on their mobile phones, cordless phones, wireless laptops and tablets.

Until now there's been no easy-to-understand information about how they can use these devices more safely.
